

Alvarinho Tour, the best of Vinho Verde

This tour answers to the requests to visit places still to be discovered (by massive tourism).

It's dedicated only to Vinho Verde (the Portuguese Albariño, but with more grape varieties), going deep into the Minho region (all the way to the border with Galicia).

This tour also allows our clients to experience the real gastronomy of Minho. They are also able to visit the most well-known restaurant for that. I have known this place for years, and it's a safe choice in terms of quality and authenticity for the food. The ciated of Valença reviews are top rated. Brejoeira is the top shelf place regarding Alvarinho wine.

Some Kms must be made to go deep in the country and find new of-the-beaten-track exciting places.
