

Aveiro + Bussaco + Coimbra Day Trip!

When you travel to a new destination it is important to see and discover different things. We present you a surprising day trip to visit unexpected places south of Porto.

This private tour's first stop will be Portuguese Venice in Aveiro. This colorful city has canals, gondolas, Salines, "Art Nouveau" buildings, and a unique egg sweet delicacy. A treat to the eyes and palate!

After that, you'll get a much more "romantic" feeling, as we are moving to Bussaco an extravagant Palace (also a hotel) built in the middle of an old monastery's forest. Everything here will seem out of place but, at the end, the entire surrounding will look quite beautiful, making this as unique place to visit. Even more after learning all the stories about it.

To absorb everything about Bussaco, having lunch at the Palace will be the best option we can give you for this tour!

The overwhelming inside decoration "screams" Portugal anywhere you look; the tiles, the staircases, the stained-glass windows and the furniture. You'll feel like a king or queen.

The city of Coimbra also welcomes you to visit the oldest University in Portugal and the world. This also includes a nice stroll in Coimbra's downtown main streets.

What's included? 8-hours of a Private Guided Tour, egg sweet delicacy tasting, entrance fees to Bussaco's forest and Coimbra University, and Transportation in your minivan.

What's not included? Meals, drinks, and souvenirs.
